FOR IMMEDIATE RELEASE
02/06/2023

Life threat to another Tamil parliamentarian

IDCTE strongly condemn the heinous act of the attempted assassination of Mr. Gajendrakumar Ponnambalam, Member of Parliament and leader of the Tamil National People's Front (TNPF), in Vadamaradchi East, Jaffna.

It was reported that today afternoon 02/06/2023 there was an assassination attempt on MP Gajendrakumar Ponnambalam. This shocking incident took place while MP Ponnambalam was attending a public meeting.

At the public meeting, two disguised intelligence agents attached to the Sri Lankan authorities were suspiciously present at the incident. During the meeting the agents started to intimidate and assault MP Ponnambalam and other citizens. When the attendees of the meeting tried to stop the attackers, one was managed to be apprehended while the other ran away.

A Police officer dressed as a civilian was present and he insisted to let go of those intelligence agents. Suddenly the police officer loaded his pistol and pointed it at MP Gajendrakumar Ponnambalam.

This is the latest example of state sponsored brutality of Tamil parliamentarians from TNPF faces within a week following the unlawful removal of MP Selvarajah Kajendran from a protest site. This further proves the structural genocide intention.

We call upon the international community, human rights organizations, and all those who value democracy and human rights to condemn this act of violence and exert pressure on the Sri Lankan state to ensure justice is served. It is time to enforce accountability in already dire situation in the occupied Tamileelam.
